

November 10, 2020

Mr. Larry Schuldt
Sterling Park District
Sterling, IL 61081

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Sterling Park District for the year ended April 30, 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated December 12, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Sterling Park District are described in Note 1 to the financial statements. No new accounting policies were adopted, and the application of existing policies was not changed during the fiscal year ended April 30, 2020. We noted no transactions entered into by Sterling Park District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate(s) affecting the General Fund financial statements were:

Management's estimate of the accrued vacation pay is based on current salary information. We evaluated the key factors and assumptions used to develop the accrual in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

The disclosure of: Pension.

In Note 6 to the financial statements: Actuarial assumptions and market conditions

The financial statement disclosures are neutral, consistent and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 10, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to Sterling Park District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as Sterling Park District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to Budget to Actual for the General Fund and Recreation Fund which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on Budget to Actual for the General Fund and Recreation Fund which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on Schedule of Assessed Valuation, Tax Levies, Rates and Extensions which accompany the financial statements but are not RSI. We did not audit or perform other procedures on this information, and we do not express an opinion or provide any assurance on it.

Restriction on Use

This information is intended solely for the use of Sterling Park District and management of Sterling Park District and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

REIFLER SHARPS SCHUETZ, LTD.

November 10, 2020

Board of Commissioners
Sterling Park District
Sterling, IL 61081

Gentlemen:

In planning and performing our audit of the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Sterling Park District as of and for the year ended April 30, 2020, in accordance with auditing standards generally accepted in the United States of America, we considered Sterling Park District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sterling Park District's internal control. Accordingly, we do not express an opinion on the effectiveness of Sterling Park District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This communication is intended solely for the information and use of management, the Board of Commissioners and Executive Director, and others within Sterling Park District, and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners
Sterling Park District
Sterling, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sterling Park District of Sterling, Illinois as of and for the year ended April 30, 2020, and the related notes to the financial statements which collectively comprise the District's financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Sterling Park District as of April 30, 2020 and the respective changes in financial position and, cash flows, where applicable, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America; which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the Sterling Park District basic financial statements. The combining and individual fund financial statements and schedules and the supplemental information listed in the table of contents are presented for additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial schedules are fairly stated in all material respects in relation to the basic financial statement taken as a whole.

The supplemental information has not been subject to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

The Statistical Information listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Sterling Park District. The information has not been audited by us and, accordingly, we express no opinion on such information.

Sterling Park District Management's Discussion and Analysis

The Sterling Park District was established in 1923, covering approximately 10 square miles, primarily in Sterling Township, and has a service population of about 25,000. The governing body of the district is comprised of five Commissioners elected at large for staggered four-year terms. A President and Vice-President are elected by the Commissioners, and a Secretary and Treasurer are appointed by the Commissioners. The daily administrative functions of the District are the responsibility of the Executive Director, who is appointed by the Board. The District employs 16 full-time and 225 part-time employees.

Approximately 17 park sites and recreational facilities totaling about 525 acres are owned by the District. Additional recreation areas are available to District residents through leases with the Illinois Department of Natural Resources. Principal park facilities include the following: Frasor Center (Administration and Maintenance), Duis Recreation Center, Westwood Fitness and Sports Center, Dillon Home Museum, Oppold Marina and Emerald Hill Golf Course.

Recreational activities are provided by the District include several miles of bike paths, a multitude of athletic fields, outdoor tennis and basketball courts, playgrounds, several indoor recreational/sports areas, boating, fishing and several hundred organized recreational programs.

Introduction

The Park District's Management's Discussion and Analysis (MD&A) provides an overview of the District's financial activities for the year ended April 30, 2020. Please read it as a narrative introduction to the financial statements that follow. This report is designed to assist the reader in focusing on significant financial issues, provide an overview of the District's financial activity, identify changes in the District's financial position, identify any material deviations from the approved budget and identify individual fund issues and concerns.

The MD&A is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in its Statement No. 34 Basic Financial Statements and Management's Discussion and Analysis for State and Local Government's issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

Financial Highlights

- The District's total assets and deferred outflows of resources exceeded its total liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$15,579,134 a decrease of \$807,606.
- Net position of governmental activities was \$15,579,134.
- Property taxes levied and collected were \$2,596,591 compared to the prior year of \$2,562,377 for an increase of \$33,714.

Sterling Park District
Management's Discussion and Analysis (Continued)

- The District's governmental funds reported combined ending fund balances of \$3,108,687, a decrease of \$327,278. The decrease is primarily due to a Covid 19 revenue loss and increased operating expenses.
- The District continues to have the ability to devote resources toward maintaining, improving and expanding its parks, playgrounds and facilities. The District spent \$1,103,325 on capital improvements.
- The District's outstanding long-term debt decreased by \$500,000 to \$8,700,000.

Overview of the Financial Statements

Management's Discussion and Analysis introduces the District's basic financial statements. The basic financial statements include three components: government-wide financial statements, fund financial statements and notes to the financial statements. The District also includes in this report additional information to supplement the basic financial statements.

Government-wide Financial Statements

The government-wide statements are designed to provide readers with a broad overview of the District's finances. The two new government-wide financial statements, Statement of Net Position and Statement of Activities represent an overview of the District as a whole, separating its operations between governmental and business type activities. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis of full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position presents information on all District assets deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

The Statement of Activities presents changes in the District's net position during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

Both government-wide financial statements distinguish governmental activities of the District that are principally supported by taxes and intergovernmental revenue, such as grants. Governmental activities that are intended to recover all or significant portion of costs through user fees and charges. Governmental activities include general government and recreation.

The government-wide financial statements are presented on pages 12-14 of this report.

Sterling Park District
Management's Discussion and Analysis (Continued)

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statement, fund financial statements focus on the District's most significant funds rather than the District as a whole. Major funds are separately reported while all other are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in the later section of this report.

The District has two kinds of funds:

Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenue, expenditures and change in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

The basic government fund financial statements are presented on pages 15-16 of this report.

Proprietary funds the District has no Proprietary funds.

Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 19 of this report.

**Sterling Park District
Management's Discussion and Analysis (Continued)**

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information including budgetary comparison for the General Fund and Recreation Fund (Major special revenue fund) and schedules concerning the District's progress in funding its obligations to provide pension benefits to its employees. Other supplementary information includes detail by funds for receivables, payables transfers and payments within the reporting entity. Required supplementary information can be found on page 51 through 55 of this report.

Major funds are reported in the basic financial statements as discussed. Combined and individual statements and schedules for non-major funds are presented in a subsequent section of this report beginning on page 56.

Government-wide Financial Analysis

The District implemented the new financial reporting model used in this report beginning with the fiscal year ended April 30, 2005. Over time, as year-to-year financial information is accumulated on a consistent basis, changes in net assets may be observed and used to discuss the changing financial position of the District as a whole.

Statement of Net Position

As noted earlier, the District's combined net position for governmental activities decreased to \$15,579,134 as of April 30, 2020, a decrease of \$807,606.

Governmental Activities

As stated previously, governmental activities decreased the District's net position by \$807,606. This is primarily due to increased operating costs to the District.

Property Taxes increased by \$64,365. The District's tax rate is 1.1679 per \$100.

Program Fees decreased by \$102,669.

Total Revenues increased by \$363,217.

**Sterling Park District
Management's Discussion and Analysis (Continued)**

Business-type Activities

There are no Business-type Activities by the District.

Government Funds

As discussed, government funds are reported in the fund statements with a short-term inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$3,108,687. The total ending fund balances of governmental funds show a decrease of \$327,278 from the previous year.

Major Government Funds

The General, Recreation, Special Revenue, Debt Service, and Capital Projects funds are the primary operating funds of the District.

The General fund balance as of April 30, 2020 was \$281,802 an increase of \$126,510 from the prior year.

The Recreation fund balance was \$172,199, an increase of \$21,440 from the prior year.

The Special Revenue fund balance was \$404,214, an increase of \$5,191 from the prior year.

The Debt Service fund balance was \$706,815, an increase of \$25,411 from the prior year.

The Capital Projects fund balance was \$1,543,487, a decrease of \$505,830 from the prior year.

Proprietary Funds

The District has no proprietary funds.

Capital Assets and Debt Administration

Capital Assets

The District's investment in capital assets, for its governmental activities as of April 30, 2020 was \$20,324,173 (net of related depreciation). The investment in capital assets includes land, buildings and land improvements, machinery and equipment and vehicles. For further detail see accompanying notes.

**Sterling Park District
Management's Discussion and Analysis (Continued)**

Debt Administration

As of April 30, 2020, the Park District has general obligation bond issues of \$1,410,000 and alternative bond obligations of \$7,290,000 for a total \$8,700,000. The fund balance of the Debt Service Fund amounted to \$706,815 as of April 30, 2020. Debt increased by \$500,000 in the current year. For further detail see accompanying notes.

Factors Bearing on the District's Future and Budget

At the time these financial statements were prepared and audited, the District was not aware of any existing circumstances that would adversely affect its financial health in the near future.

There were no variations to the original budget and the final budget. There were no significant variations to actual results to budget in the general fund.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances, comply with finance-related laws and regulations and demonstrate the District's commitment to public accountability. Sterling Park District
Notes to The Financial Statements
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Sterling Park District (District) is operated under a board of commissioners - director form of government and is operated to improve the quality of life for the residents of Sterling Township which include: recreation programs, park management, capital development and general administration.

The accounting and reporting policies of the District relating to the funds included in the accompanying general-purpose financial statements conform to generally accepted accounting principles (GAAP) applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant policies.

A. Reporting Entity

The Park District follows the provisions of Governmental Accounting Standards Board Statement No. 39, "Determining Whether Certain Organizations Are Component Units - an amendment of GASB Statement No. 14". As defined by generally accepted accounting principles established by GASB, the financial reporting entity consists of the primary government, as well as its component units, which are legally separate, tax-exempt entities and meet all of the following criteria:

1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents.
2. The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
3. The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government.

The Park District has concluded that no entities meet the criteria of Statement 39 for inclusion as a component unit. Likewise, the Park District is not required to be included as a component unit of any other entity.

Governmental Accounting Standards Board Statement No. 61, "The Financial Reporting Entity", is an amendment of GASS Statements No. 14 and No. 39, which does not have impact on the current year financial statements.

B. New Accounting Standards Implemented

As of May 1, 2012, the District has implemented GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position". The objective of this Statement is to improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effect on a government's net position.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. New Accounting Standards Implemented (Continued)

As of May 1, 2012, the District has implemented GASB Statement No. 65 "Items Previously Reported as Assets and Liabilities". The objective of this statement is to establish accounting and financial reporting standards that reclassify as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities. The Statement also recognizes as outflows of resources or inflows of resources certain items that were previously reported as assets and liabilities.

As of May 1, 2015, the district has implemented GASB Statement No. 68 "Accounting and Financial Reporting for Pensions" which is an amendment of GASB Statement No. 27. The objective of this statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

Upon implementation of GASB 68, the District has also implemented GASB Statement No. 71 "Pension Transition for Contributions Made Subsequent to the Measurement Date" – an amendment of GASB Statement No. 68.

C. Basis of Presentation

GOVERNMENT - WIDE FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business type activities, when applicable. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. The Park District allocates indirect expenses to functions in the Statement of Activities in cases where a clear and direct connection exists. Program revenues include charges to residents who purchase, use or directly benefit from goods, services, or privileges provided by a given function, and grants and contributions that are restricted to meeting the operational and capital requirements of a particular function. Taxes and other income items that are not specifically related to a function are reported as general revenues.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Presentation (Continued)

GOVERNMENT - WIDE FINANCIAL STATEMENTS (CONTINUED)

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Fund financial statements of the reporting entity are organized into individual funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows, liabilities, deferred inflows, fund equity, revenues, and expenditures/expenses. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions.

FUND FINANCIAL STATEMENTS

Funds are organized as major funds or non-major funds within the governmental statements. A fund is considered major if it is the primary operating fund of the entity or meets the following criteria:

- Total assets and deferred outflows, liabilities and deferred inflows, revenues or expenditures/expenses of the individual governmental fund are at least ten percent of the corresponding total for all funds of that category or type and
- Total assets and deferred outflows, liabilities and deferred inflows, revenues or expenditures/expenses of the individual governmental fund are at least five percent of the corresponding total for all governmental funds combined.
- 60 days is the length of time used to define available for purposes of revenue recognition in the governmental fund financial statements.

GOVERNMENTAL FUNDS (GOVERNMENTAL ACTIVITIES)

Governmental fund types are those through which most governmental functions of the Park District are financed. The Park District's expendable financial resources are accounted for through governmental funds. The measurement focus is based upon determination of changes in financial position rather than upon net income determination. A brief explanation of the Park District's governmental funds follows:

General Fund

The Corporate Fund accounts for resources traditionally associated with local government, except those accounted for in another fund. Included in these services are general administration and park maintenance. Financing is primarily provided from annual property tax levy and Illinois personal property replacement taxes.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Presentation (Continued)

GOVERNMENTAL FUNDS (GOVERNMENTAL ACTIVITIES) (CONTINUED)

Recreation Fund

The Recreation Fund accounts for the operations of the District's recreational programs and concessions. Financing is provided from an annual property tax levy restricted by the state for recreation purposes and fees and charges for programs and activities assigned for recreation purposes.

Non-Major Governmental Funds

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Funds included in this fund category are:

Recreation	Illinois Municipal Retirement
Special Gifts	Museum
Special Recreation	Police Program
Liability Insurance	Audit
Social Security	

Debt Service Fund

The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Capital Projects Fund

The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets, excluding those types of capital related outflows financed by proprietary funds.

Proprietary Fund Types

The proprietary fund type is used to account for activities which are similar to those often found in the private sector, where the determination of net income is necessary or useful to sound financial administration.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Presentation (Continued)

Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The Park District has no funds which operate as enterprise funds.

D. Basis of Accounting and Financial Statement Presentation

In the government-wide Statement of Net Position and Statement of Activities, both governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred, or the economic asset is used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The current financial resources measurement focus and the modified accrual basis of accounting are followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e., both measurable and available to finance the Park District's operations. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Property taxes, investment earnings, and charges for services are the primary revenue sources susceptible to accrual. The Park District considers property taxes available if they are due and collected by year-end. Class registration fees received by the Park District are recognized as revenue when the class starts. All other revenues are recognized when cash is received. Expenditures are recorded when the related fund liability is incurred.

The Park District reports unearned/deferred revenues on its Statement of Net Position and its Governmental Funds Balance Sheet. For government-wide financial statements, unearned revenues arise from program charges received before the program has started. For governmental fund financial statements, deferred revenues occur when potential revenue does not meet either the "measurable" and "available" criteria for recognition in the current period or when resources are received by the Park District before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met, or when the Park District has a legal claim to the resources, the liability for deferred revenue is removed from the Governmental Funds Balance Sheet and revenue is recognized accordingly.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Measurement Focus

On the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the flow of economic resources measurement focus, which means all assets, deferred outflows, liabilities (whether current or non-current), and deferred inflows are included on the Statement of Net Position and the operating statements present increases and decreases in net position.

The measurement focus of all governmental is the flow of current financial resources concept. Under this concept sources and uses of financial resources, including capital outlays, debt proceeds and debt retirements are reflected in operations. Resources not available to finance expenditures and commitments of the current period are recognized as deferred revenue or a reservation of fund equity. Liabilities for claims, judgments, compensated absences and pension contributions, which will not be currently liquidated using expendable available financial resources are included as liabilities in the government-wide financial statements but are excluded from the governmental fund's financial statements. The related expenditures are recognized in the governmental fund financial statements when the liabilities are liquidated.

F. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosure of contingent assets. deferred outflows of resources, liabilities and deferred inflows of resources at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

G. Compensated Absences

Full time staff can accumulate unused sick time (640 hours), vacation time (160 hours) and personal time (16 hours). No benefit is provided to part time employees.

As of April 30, 2020, and 2019, the amount of accumulated and unpaid vacation, sick and personal time were, \$197,468 and \$163,459 respectively, reflecting an increase of \$34,009. This liability is accounted for as a governmental activity or a business activity on the Government-Wide Statement of Net Position and in the Fund Financial Statements, depending on the individual fund incurring the liability. Historically, the governmental activities liability has been paid from the General and Recreation Funds. The liability is expected to be paid within one year of the balance sheet date.

In accordance with provisions of GASB Statement 16, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. However, an expenditure is reported, and a liability is recognized for the portion of the accumulating sick leave benefits that it is estimated will be taken as terminal leave at retirement.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Budgetary Data

The Park District operates under the Appropriations Act. All financial statements utilize the term "budget" to reflect estimated revenue and appropriations. The budgets are prepared using the same basis of accounting to reflect revenues and expenditures/expenses as is used in the preparation of the general-purpose financial statements.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Director submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing May 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted at a public meeting to obtain taxpayer comments.
3. Prior to July 30, the budget is legally enacted through passage of an ordinance.
4. The Treasurer is authorized to transfer up to 10% of the total budget between budget items within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Commissioners.
5. Formal budgetary integration is employed as a management control device during the year.
6. Budgeted amounts are as adopted by the Board of Commissioners.

Budgets for the General, Special Revenue, Debt Service and Capital Projects Funds are legally adopted on a basis consistent with GAAP. Because the level of legal control is at the individual fund level, expenditures may not legally exceed appropriations at the fund level. Any expenditures in excess of the legally adopted appropriation at the fund level must be approved by the Park District Board through a supplemental appropriation. No supplemental appropriations were made during the year ending April 30, 2020.

By law, management can make transfers between individual expenditure line items within a fund, but approval by the Board of Commissioners is required in order for management to make transfers between individual funds. The Board may authorize transfers not to exceed 10% of budgeted expenditures for the year. An ordinance must be filed with the county in order for the budget to be amended.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Cash, Cash Equivalents, and Investments

The Park District considers all highly liquid investments with an initial maturity date within three months of the date acquired by the Park District and investment pools to be cash equivalents.

Cash amounts are carried at cost, and represent funds held in the Park District's name by the applicable financial institution, adjusted for outstanding transactions.

Under Illinois law, the Park District is restricted to investing funds in specific types of investment instruments. The following generally represent the types of instruments allowable by State Law:

1. Securities issued or guaranteed by the U.S. Government.
2. Interest-bearing accounts of banks and savings and loan associations insured up to \$250,000 by the Federal Deposit Insurance Corporation.
3. Short-term obligations (less than 270 days) of U.S. corporations with assets over \$500 million dollars rated in the highest classification by at least two rating agencies.
4. Insured accounts of an Illinois credit union chartered under United States or Illinois law.
5. Money market mutual funds with portfolios of securities issued or guaranteed by the U.S. Government or agreements to repurchase these same types of obligations.
6. Illinois Park District Liquid Asset Fund Plus and the Illinois Funds Money Market Fund.
7. Repurchase agreements, which must meet instrument transaction requirements of Illinois law. The Park District does not invest in repurchase agreements.

J. Interfund Receivables / Payables

Amounts due to and due from other funds may arise during the course of the Park District's operations because of numerous transactions between funds to finance operations, provide services, construct assets and service debt at April 30, 2020, the Park District interfund receivables and payables do not exist.

K. Transfers

During the normal course of Park operations, transfers between funds may arise to reimburse individual funds for expenditures/expenses incurred for the benefit of other funds. Typical expenses in the category are general administrative and maintenance expenses. Transfers were made for the year ended April 30, 2020 and amounted to \$2,371,311. The District budgets for transfers between funds and all transfers are approved by the board. The transfers cover expenses paid from the General fund, Recreation fund and Debt Service fund for items related to Capital Projects and Non-Major funds.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Inventories

The Park District does carry inventory at recreation facilities. Inventories are valued at the lower of cost or market.

M. Prepaid Expenses / Expenditures

Payments made to vendors for services that will benefit periods beyond April 30, 2020 are recorded as prepaid expenses/expenditures.

N. Capital Assets

The accounting treatment over property, plant and equipment (capital assets) depends on whether the assets are used in governmental fund operations and whether they are reported in the government-wide or fund financial statements.

GOVERNMENT - WIDE FINANCIAL STATEMENTS

In the government-wide financial statements, fixed assets are accounted for as capital assets. The Park has adopted a capitalization threshold of \$1,000 for capital asset additions. All capital assets are valued at historical cost or estimated historical cost if actual cost is unavailable. Donated capital assets are stated at their fair market value as of the date donated.

Prior to May 1, 2004, capital assets of governmental funds were accounted for in the general fixed assets account group and were not recorded directly as a part of any individual fund's financial statements. Infrastructure of governmental funds was not previously capitalized. Upon implementing GASB 34, governmental units are required to account for all capital assets, including infrastructure, in the government wide financial statements prospectively from the date of implementation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Land Improvements	20 to 50 Years
Buildings	20 to 50 Years
Improvements and Equipment	5 to 20 Years

There are no Proprietary funds.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Capital Assets (Continued)

FUND FINANCIAL STATEMENTS

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlays in the fund from which the expenditure was made. Public domain (infrastructure) assets consisting of roads, curbs and gutters, sidewalks, drainage systems, and lighting systems are not capitalized in the fund financial statements.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not included as capitalized assets.

O. Property Taxes

The Park District's property taxes are levied each calendar year on all taxable real property located in the Park District. For governmental funds, property taxes which are levied to fund the current fiscal year and collected for the appropriate levy/budget year are recorded as revenue.

The County Assessor is responsible for assessment of all taxable real property within Whiteside County (County) except for certain railroad property which is assessed directly by the state.

Some portion of the County is reassessed each year on a repeating schedule established by the County Assessor. The County Clerk computes the annual tax for each parcel of real property and prepares tax books used by the County Collector as the basis for issuing tax bills to all taxpayers in the County.

Property taxes are collected by the County Collector and are submitted to the County Treasurer, who remits to the units their respective shares of the collections. Taxes levied in one calendar year become due and payable in two installments on June 1 and September 1 during the following calendar year.

The first installment is an estimated bill and is one-half of the prior year's tax bill. The second installment is based on the current levy, assessment and equalization, and any changes from the prior year will be reflected in the second installment bill. Taxes must be levied by the last Tuesday in December for the levy year.

The levy becomes an enforceable lien against the property as of January 1 of the levy year. The 2019 levy has been recorded as a receivable at April 30, 2020.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

P. Long Term Liabilities

In the government-wide financial statements, debt principal payments of both government and business -type activities (when applicable) are reported as decreases in the balance of the liability on the Statement of Net Position. Unamortized losses or gains on refunding, bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are reported as expenses.

In the fund financial statements, governmental funds recognize bond premium and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on the debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual debt proceeds received, are reported as expenditures.

Q. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resource. This separate financial statement elements, deferred outflows of resources, represents a consumption of net assets that applies to future period(s) and so will not be recognized as an outflow of resources(expense/expenditure) until that time. In addition to liabilities, the statement of financial position will sometimes report a separate financial statement element, deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to future period(s) and so it will not be recognized as an inflow of resources (revenue) until that time. These amounts are deferred and recognized as an inflow of resources in the period these amounts become available.

R. Equity Classifications

GOVERNMENT – WIDE FINANCIAL STATEMENTS

Equity is classified as net position and displayed in three components:

- Net Investment in capital assets - consists of capital assets, net of accumulated depreciation and related debt, if applicable.
- Restricted Amounts - consists of amounts with constraints placed on the use either by external groups such as creditors, granters, contributors, or laws or regulations of other governments, or law through constitutional provisions or enabling legislation.
- Unrestricted Amounts - consists of all other amounts that do not meet the definition of restricted or invested in capital assets.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Equity Classifications (Continued)

FUND FINANCIAL STATEMENTS

Governmental fund equity is classified as fund balance. The components of fund balance are:

- Non-spendable - consists of resources that cannot be spent because of their form.
- Restricted - consists of resources which have limitations imposed by enabling legislation and limitations imposed by creditors, granters, or contributors.
- Committed - consists of resources which have limitations imposed by the governing board through formal action. The board, which possesses the highest level of decision-making authority, establishes, modifies and rescinds commitments through a majority vote.
- Assigned - consists of resources which have limitations resulting from intended use. Management establishes assignments of fund balances pursuant to board discussion and consent.
- Unassigned - consists of the residual net resources of a fund.

The Park District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. If different levels of unrestricted funds are available for spending, the Park District considers committed funds to be expended first followed by assigned and, lastly, unassigned funds.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 2 – DEPOSITS AND INVESTMENTS

Cash and cash equivalents are held separately and in pools by several of the District's funds.

Deposits - At year end, the carrying amount of the District's deposits was \$1,319,628 and the bank balance was \$1,279,307. Of the bank balance, \$250,000 was covered by federal depository insurance, and \$1,069,628 was collateralized by pledged securities by the financial institution.

The following table categorizes the Park District's cash according to level of risk:

	<u>Bank Balance</u>	<u>Carrying Amount</u>
(1) Deposits covered by federal depository insurance, or by collateral held by the District or its agent in the District's name	\$ 250,000	\$ 250,000
(2) Deposits covered by collateral held by the pledging financial institution, or its trust department, or its agent in the District's name	0	0
(3) Deposits covered by collateral held by the pledging financial institution, or its trust department, or its agent but not in the District's name, and deposits that are uninsured and uncollateralized	<u>1,029,307</u>	<u>1,069,628</u>
	<u>\$ 1,279,307</u>	<u>\$ 1,319,628</u>

Investments – Investments which consist of certificates of deposit, are recorded at cost and are held by the District. It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state statutes governing the investment in public funds, using the “prudent person” standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal) liquidity and yield.

As of April 30, 2020, \$502,373 was invested in a certificate of deposit at Sauk Valley Bank at 1.59% and matures on May 7, 2020.

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral of all bank balances in excess of federal depository insurance.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 3 – RESTRICTED ASSETS

The District maintains savings accounts and certificates of deposit whose use is restricted by request of individuals who made the initial donations. Following is a summary of such restricted assets:

Eberley Endowment - principal may not be used, interest to be used at the district's discretion	\$ 10,251
Sangrey Memorial - use restricted for maintaining and upgrading nature center	<u>1,319</u>
Total	<u>\$ 11,570</u>

NOTE 4 – CAPITAL ASSETS

A summary of the changes in capital assets of the governmental activities for the year ended April 30, 2020 follows. Total depreciation expense for the year charged for governmental activities was \$1,671,096. Of this amount \$236,651 was charged for general governmental functions, and \$1,434,445 was charged to the recreation fund.

	Balance April 30 <u>2019</u>	<u>Additions</u>	Retire- <u>ments</u>	Balance April 30 <u>2020</u>

NOTE 5 – DEBT COMMITMENTS

General Obligation

The District has issued general obligation park bonds to provide funds for building, maintaining, improving, and protecting park district facilities. Following is a summary of bond transactions:

Bonds payable beginning of year	\$ 1,350,000
Bond payments	1,350,000
Bond proceeds	<u>1,410,000</u>
Bonds payable - End of year	<u>\$ 1,410,000</u>

On December 2, 2019 the District issued General Obligation Bonds in the amount of \$1,410,000. Proceeds from the sale of the bonds will be used to build, maintain, improve, extend and protect the park and recreation facilities of the District. The bond issue matures on December 1, 2020. The interest rate is 1.89% annually.

Alternative Bonds

On June 1, 2010 the Board authorized the issuance of the \$2,600,000 alternative bond payable from pledge revenues of the District. The \$2,600,000 was used to fund primarily the Duis Recreation Center renovation project. The interest rates vary from 2.85% to 6.25% and mature gradually from 2012 to 2030 with interest payable semi-annually.

On August 3, 2010 the Board authorized the issuance of an additional \$3,000,000 in alternative revenue source bonds. The funds were used to refinance the General Obligation issued in 2001. The interest rates vary from 2.0% to 4.15% and the bonds mature gradually from 2010 to 2020.

On July 17, 2018 the Board authorized the issuance of an additional \$5,345,000 in alternative revenue source bonds. The funds were used to refinance the Alternative Bonds issued in 2009. The interest rate varies from 3.0% to 4.0% and the bonds mature gradually from 2019 to 2038.

NOTE 6 – PENSION PLAN

A. Plan Description

The employer's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The employer plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information (RSI). That report may be obtained on-line at www.imrf.org.

B. Funding Policy

As set by statute, your employer Regular plan members are required to contribute 4.50 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Employer contribution rate for calendar year 2019 was 4.97 percent. The Employer also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

C. Annual Pension Cost

The required contribution for calendar year 2019 was \$56,746.

<u>Calendar Year Ending</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation</u>
12/31/2019	\$ 56,746	100%	\$ 0
12/31/2018	\$ 99,531	100%	\$ 0
12/31/2017	\$ 96,648	100%	\$ 0

The required contribution for 2019 was determined as part of the December 31, 2017 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 31, 2017, included (a) 7.5% investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 3.50% a year, attributable to inflation, (c) additional

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 6 – PENSION PLAN (CONTINUED)

C. Annual Pension Cost (Continued)

projected salary increases ranging from 0.4% to 10% per year depending on age and service, attributable to seniority/merit, and (d) post-retirement benefit increases of 3% annually. The actuarial value of the Employer Regular plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. The Employer Regular plan's unfunded actuarial accrued liability at December 31, 2017 is being amortized as a level percentage of projected payroll on an open 24-year basis.

D. Funded Status and Funding Progress

As of December 31, 2019, the most recent actuarial valuation date, the Regular plan was 98.35% funded. The actuarial accrued liability for benefits was \$3,539,332 and the actuarial value of assets was \$3,480,813, resulting in an underfunded actuarial accrued liability (UAAL) of \$58,519. The covered payroll for calendar year 2019 (annual payroll of active employees covered by the plan) was \$1,141,772 and the ratio of the UAAL to covered payroll was 5 percent.

Summary of Actuarial Methods and Assumptions Used in the Calculation of the Total Pension Liability

Method and Assumptions Used to Determine Total Pension Liability

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market Value of Assets
Price Inflation	2.50%
Salary Increases	3.35% to 14.25%
Investment Rate of Return	7.25%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016.
Mortality	For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF Specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
Notes	There were no benefit changes during the year.

Summary of Actuarial Methods and Assumptions Used in the Calculation 2019 Contribution Rates:

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31, each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

NOTE 6 – PENSION PLAN (CONTINUED)

CALCULATION OF SINGLE DISCOUNT RATE

GASB Statement No. 68 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the fund to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. As long as assets are projected to be on hand in a future year, the assumed valuation discount rate is used. In years where assets are not projected to be sufficient to meet benefit payments, the use of a "risk-free" rate is required, as described in the following paragraph.

The *Single Discount Rate* (SDR) projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not sufficient to pay benefits).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.25%; the municipal bond rate is 2.75%; (based on the daily rate closet to but not later than the measurement date of the 20 year municipal GO AA Index) and the resulting single discount rate is 7.25%

Note 7 – LEASE AGREEMENT

The lease covering the Harold Oppold Marina is a Twenty-year lease with the Department of Conservation, State of Illinois, due to expire in the year 2038. This lease may be terminated by either party upon 120 days written notice. The lessee agrees to maintain liability insurance and submit an annual payment of \$5.00.

The District also has the Martin’s Landings lease with the Illinois Department of Natural Resources where the District uses the facility and maintains the facility but pays no actual rent. The lease is for five years and was entered into on June 24, 2016.

NOTE 8 – RISK MANAGEMENT

The Sterling Park District is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and net income losses.

Since May 1, 1989, the District has been a member of the Park District Risk Management Agency (PDRMA) Property/Casualty Program. PDRMA is a public entity risk pool consisting of park districts, forest preserve districts, special recreation associations and certain non-profit organizations serving the needs of public entities formed in accordance with the terms of an intergovernmental cooperative agreement among its members. The following table is a summary of the property/casualty coverage in effect for the period January 1, 2020 through January 1, 2021.

NOTE 9 – INSURANCE (CONTINUED)

Losses exceeding the per-occurrence self-insured and reinsurance limit would be the responsibility of the Sterling Park District.

As a member of PDRMA's Property/Casualty Program, the District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the Sterling Park District and PDRMA is governed by a contract and by laws that have been adopted by resolution of the Sterling Park District's governing body. The Sterling Park District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by PDRMA.

Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and loss reduction and prevention procedures to be followed by the members.

The following represents a summary of PDRMA's Property/Casualty Program's balance sheet at December 31, 2019 and the statement of revenues and expenses for the period ending December 31, 2019. The District's portion of the overall equity of the pool is 0.574% or \$283,202.

Assets	\$	70,609,234
Deferred Outflows of Resources - Pension	\$	2,207,181
Liabilities	\$	23,059,101
Deferred Inflows of Resources - Pension	\$	404,213
Member Net Position	\$	49,353,101
Operating Revenue	\$	19,938,615
Nonoperating Revenue	\$	6,014,647
Expenditures	\$	20,463,511

Since 89.34% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the Net Position is impacted annually as more recent loss information becomes available.

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 10 – DEFICIT FUND BALANCE

At April 30, 2020 there were no deficit fund balances.

NOTE 11 – DEFERRED COMPENSATION PLAN

On May 12, 1993 the District established a deferred compensation plan pursuant to code section 457 of the Internal Revenue Code. The Park District adopted the United States conference of Mayors Master Deferred Compensation Plan. Investments are handled by Public Employees Benefit Service Corporation.

Employees may elect to defer up to 10% of their annual salary. No contributions are made on behalf of employees by the District.

NOTE 12 – INSURANCE FUND EXPENDITURES

The proceeds from property tax revenue assessed for tort liability of \$225,318 were disbursed as follows:

Salary and Wages	\$	67,300
Insurance		90,600
Risk Management		<u>67,418</u>
	\$	<u>225,318</u>

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

NOTE 13 – PROPERTY TAXES

The District's property tax is levied on January 1 of each year on all taxable real property located in the District. Property tax revenue received in fiscal year 2020 represents collection of the 2019 taxes. Property taxes from the 2019 levy will be collected in and are intended to finance fiscal year 2020 operations.

Property is assessed as of January 1 of each year by the Township Assessors. The values are adjusted by various percentages according to the type of property (residential, commercial, etc.). The assessed values are equalized by the Illinois Department of Revenue to ensure uniformity of property assessments throughout the state. The Whiteside County Clerk computes the annual tax rate by dividing the requested levy into the equalized value of each taxing unit. The Clerk then computes the tax for each parcel by multiplying the aggregate rates of all the taxing units having jurisdiction over the parcel by the equalized value. The tax amounts by parcel are forwarded to the Whiteside County Collector.

Taxes levied in one year become due and payable in two installments during the following year. The first installment is due no later than June 1 and the second installment is due no later than September 1. The District receives significant distributions of tax receipts approximately one month after these due dates.

The following are the taxes levied per \$100 of assessed valuation:

	<u>Maximum</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

NOTE 14 – REQUIRED INDIVIDUAL FUND DISCLOSURE

There were excess of expenditures over appropriation for the year ended April 30, 2019 in the following funds.

Audit Fund
Renovation & Improvements Fund
Special Recreation Fund

NOTE 15 – ENTERPRISE ZONES AND TAX INCREMENT FINANCING

The Park District is a participant in various Enterprise Zones and Tax Increment Financing projects in tax jurisdiction. The Park District Property Tax revenue has been decreased by the district participation in these projects in the short term.

NOTE 16 – DATE OF MANAGEMENT REVIEW

Management has evaluated subsequent events through November 10, 2020 the date which the financial statements were available to be issued.

NOTE 17 – SUBSEQUENT EVENTS

The company evaluated its April 30, 2020 financial statements for subsequent events through November 10, 2020, the date the financial statements were available to be issued. The district is not aware of any subsequent events that would require recognition or disclosure in the financial statements, other than what is mentioned below.

On September 30, 2020 Sterling Park District refinanced the 2010A alternative bonds with a series 2020 \$5,000,000 General Obligation Park Bonds (Alternative Revenue Source). The 4% bonds mature annually over the next 20 years.

The amount due from the Underwriter on September 30, 2020 is as follows:

Principal	\$5,000,000.00
Less Underwriter discount	(49,793.13)
Plus Reoffering Premium	596,793.05
Total Due on September 30, 2020	\$5,546,999.92

Sterling Park District
Notes to The Financial Statements (Continued)
For the Year Ended April 30, 2020

Applied as Follows:

Due to the Project Construction Fund	\$3,720,000.00
Due to the Current Refunding Fund	1,710,000.00
Cost to Underwriter	64,085.42
Due to the Bond Insurer	52,914.50
Total Due on September 30, 2020	\$5,546,999.92

In December 2019, an outbreak of a novel strain of coronavirus (COVID - 19) originated in Wuhan China and has since spread to other countries including the United States. On March 11, 2020, the world Health Organization characterized COVID – 19 as a pandemic. In addition, multiple jurisdictions in the United States declared a state of emergency. It is anticipated that these impacts will continue for some time. There has been no immediate impact to the district’s operations. Future potential impacts may include disruptions or restrictions to ability to work and or provided recreational and offer program services at facilities serviced by the district to the community. The future effects of these issues are unknown.

Notes to Supplemental Information
April 30, 2020

Budgetary Data - The Board of Commissioners follows these procedures in establishing the budgetary data reflected in the financial statements. Prior to April 30, the Director submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing on May 1. The operating budget includes proposed expenditures and the means of financing them. The District's budgetary operations are governed by the appropriation law detailed in the Illinois Park District Code and administered by the Director under the supervision of the treasurer. Notice is given and public meetings are conducted to obtain taxpayer comments. The Board may add to, subtract from, or change appropriations, but may not change the form of the budget. Prior to the end of the first quarter of each fiscal year, the budget is legally enacted through the passage of a Board Resolution.

Budgets for General and Special Revenue Funds are prepared on a cash basis of accounting. This method is not in compliance with generally accepted accounting principles (GAAP). Budgetary comparisons presented in this report are on this Non-GAAP basis.

The appropriation law allows for budgeted transfers among categories in any fund. The appropriation law also allows for non-budgeted transfers that do not exceed an aggregate of 10% of the total amount appropriated in such fund, without additional District Board action. After the first six months of any fiscal year, the District Board may, by two-thirds vote, amend the initially approved appropriation ordinance. Unused appropriations lapse at the end of the fiscal year.

Expenditures legally may not exceed the total of appropriations and beginning fund balance at the fund level.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting - under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation - is utilized in the governmental funds during the year. All outstanding encumbrances lapse at fiscal year-end.

Budget Basis of Accounting - Budgetary information for individual funds is prepared on the same basis as the general-purpose financial statements. The budget is prepared in accordance with the Illinois Park District Code and is derived from the combined annual budget and appropriation ordinance of the District. Working Budgets are prepared for all funds within the governmental fund type. All budgets are prepared based on the annual fiscal year of the District. Budgetary funds are controlled by an integrated budgetary accounting system in accordance, where applicable, with various legal requirements that govern the Park District.
